What is a strategic plan?

- Strategic planning is clarifying the overall purpose and desired results of an organization, and how those results will be achieved.
 - Where are we now?
 - Where are we going?
 - How will we get there?

Where are we now?

- Foundational elements:
 - **Mission:** The mission describes your organization's purpose — the purpose for which you were founded and why you exist.
 - **Values:** This clarifies what you stand for and believe in. Values guide the organization in its actions.
- Current position:
 - SWOT Analysis
 - Strengths
 - Weaknesses
 - Opportunities
 - Threats

Mission Statement

- The purpose of Community Service Inter-Club Council is to support community service clubs at California State University, Fullerton by facilitating communication, encouraging greater collaboration, and directing students to available resources.

Values

- Community service provides students with opportunities to become active in the community and positive contributors to society. These experiences enable students to acquire skills and knowledge while providing a service to others. Students are able to obtain work related skills, make good references, and network with potential future employers. Students also develop civic and social responsibility while becoming more aware of community needs.

Where are we going?

- What will my organization look like in the future? Where are we headed? What is the future I want to create for this organization?
 - **Vision Statement:** Your vision is formulating a picture of what your organization's future makeup will be and where the organization is headed. What will your organization look like 5 years from now?

Vision Statement

- Community Service Inter-Club Council is an advocate of community service clubs that seeks to promote their activities and recognize the impacts of their work.
